

SYKES SUPER WISPASET 100 - 4"

The Super Wispaset 100 pump will deliver a flow rate of 160m³ per hour and is possibly the quietest pump on the market with a maximum noise level of 58dBA @ 7m. The Wispaset 100's most innovative feature is its optional Telemetry, which allows remote monitoring, removing the need for unnecessary and costly visits by engineers.

FEATURES

- 24 hour running
- Engine options
- Lifting eye security
- Low cost operation
- Oil mist filter
- Oil pressure shut down
- Optional Auto stop/start
- Optional high level bund alarm
- Optional low fuel warning
- Optional Telemetry
- Reduced noise levels 58 dBA @ 7m
- Skid and fast tow units
- Stackable Option
- Temperature shut down

ENVIRONMENTS

- Civil engineering
- Clean and dirty water
- Emergency sewer repairs
- Over pumping
- Quarries
- Site dewatering
- Sludge
- Slurry
- Utilities
- Waste water

TECHNICAL

- Noise level max Typical noise level at 7m = 58 - 65 dBA
- Fuel consumption Typical fuel consumption on full load @ 1800 rpm: 5 litres/hour
- Weight 1685 kg with fuel / 1500 kg without fuel
- Control Optional Auto stop start/ Optional telemetry/ Optional shutdowns
- Dimensions l x w x h 2137x1250x1535
- Performance Max head: 31 m / Max flow: 45 l/s / Max solid: 44 mm
- Fuel tank capacity 158 litres. Max 24h running
- Chassis High speed trailer / Skid mounted / Fork Lift slots / Fully Bunded
- Pump materials Main pump: SG grade iron
- Pipe connections Suction: 4" Table D, Discharge: 4" Table D, Bauer couplings option
- Engine type power speed Kubota V2203 / 21 kW / 1800 rpm, Deutz D2009L03 / 20 kW / 1800 rpm
