

## DRC150 MEDIUM & HIGH HEAD

The DRC 150/150's highly efficient design ensures sustained performance at the lowest possible cost. The simplicity of construction with horizontal split casing, provides for total ease of maintenance, enabling the pump internals to be inspected without removing the drive or pipe work

## FEATURES

The DRC 150/150's highly efficient design ensures sustained performance at the lowest possible cost. The simplicity of construction with horizontal split casing, provides for total ease of maintenance, enabling the pump internals to be inspected without removing the drive or pipe work

### Pump performance

DRC 150/150 . Max Head: 190 m. Max Flow:118.0 l/s. The DRC 150/150 dimensions are H2,260 X W2,385 X L5,330mm and it weighs 5,135kg excluding fuel

## PERFORMANCE CURVE
