

2" SULZER DRAINAGE PUMP

The low weight and compact design of the submersible drainage pump J 12 ensure convenient transport, handling, and installation. The pump is ideal for pumping water and dirty water mixed with light abrasives. 50 Hz: head max 15 meters, flow max 9 l/s. 60 Hz: head max 18.5 meters (61 feet), flow max 8.5 l/s (135 gpm).

FEATURES

- Plug-and-pump installation without having to worry about overheating.
- Reliable, trouble-free operation also at low water levels.
- High wear resistance ensures years of cost-efficient pumping.
- Serviceability with modular design.
