

GE DUAL VOLTAGE OIL FIRED HEATERS RANGE

The GE DV range are Direct Fired oil heaters, designed for use in well-ventilated areas. They can be fuelled by Green diesel and available with either 230 or 110 volt electric supply. They are very reliable and deliver large volumes of warm air quickly and safely.

TECHNICAL FEATURES

Air flow max 500 m³/h
 Plug type BS1363 230 V BS4343 16 A
 100V
 Power supply 230/100V 1 ph 50 Hz Run
 1.6/3.35 A
 Noise level max 73 dBA @ 1 metre
 Nominal heating duty 28 kW 95536 btu
 Fuel type Gas Oil or Kerosene
 Fuel consumption 2.6 l/h
 Tank capacity 30 litres
 Weight 31 kg
 Typical heated area 675 m²
 Control Automatic External Controls
 Available

FEATURES

Delivers large volumes of warm air
 Direct fired
 Economical
 Quiet in operation
 Runs on low cost fuel
 Safe and easy to use
 Totally portable
 Very reliable

ENVIRONMENTS

Construction sites
 Factories
 Farm buildings
 Garages
 Loading bays
 Sports Halls
 Warehouses
