

## AIRMEC TTS 3455/385

### 5.5 HP PETROL DRIVEN COMPRESSOR

High-performance motor compressor with 4-stroke petrol engine. Self rewinding rope starter. Single-stage two-cylinders compressor heads with cast iron cylinder at high performance air delivery. Automatic release valve and vacuum setting which maintains a constant pressure in the tank. Complete with filter-reducer-lubricator and distribution manifold.

Provided with pneumatic wheels and handy frame, suitable for agricultural use.
