

## 3" DIESEL THRASH PUMPS

The 3" diesel thrash pump series provides pumps which can process sand, leaves and other solids with a size of up to 40 mm. Strengthened gaskets, a robust casing and sturdy components protect the engine and also allow long running times under unfavorable conditions. With a throughput between 20 and 140 m<sup>3</sup>/h, the Hatz pumps are available for all sorts of applications.

## TECHNICAL

**KTH-80DHR**

**Trash Duty Impeller**

**Koshin Pump End**

**Hatz 1B30**

**Recoil Start**

**No Oil Alert**

**99Kg**

**7 Metres Suction Head Maximum**

**1250 Litres Per Minute Maximum**

**24 Metres Head Maximum**

**3" BSP Male Inlet / 3" BSP Male Outlet**

**H 710mm x W 700mm x L 800mm**

**Suitable for trash duty, sewage and muck**
