

SEH-80X 3" PETROL PUMP

The SEH-80X is a high quality self-priming 3" pump for clear water with solid particles up to 3mm. This centrifugal pump is protected by a sturdy rollover frame. SEH-80X is equipped with the Honda GX160 engine. Pump housing is made of aluminium die-cast. Impeller, volute casing made of cast iron and the carbon ceramic mechanical seal ensure long life and durability. The delivery volume of this pump is maximum 930 L/min, or a total head up to 26m. The product has 3" inlet and outlet, aluminium die-cast casing, 4 -stroke engine, low oil alert, 3.1-liter fuel tank, engine tool, a filter, 2 hose couplings and three hose bands.

FEATURES

Self-priming hidels pump,
forced air cooling 4-stroke
gasoline engine from HONDA

2.9 kW/ 3.9 hp, delivery volume
max. 930 L/min, total head max.
26m

Suction head max. 8m, tank
capacity 3.1 L, approx 2hrs drive
operation.

For domestic water applications
with solid particles up to 3mm

Highly effective mechanical seal
made of special carbon
ceramics provides extra
durability

TECHNICAL SPECS

Weight (kg)34

Connection Dia (mm)80

Delivery Volume (L/min)930

Total Head (m)26

Exhaust Volume (ccm)163

Fuel Tank Capacity (L)3.1

EngineHonda GX160

MotortypeForced Air Cooling 4 Stroke Gasoline Engine

Max. Output3.6 kW (4.9 PS) / 3600 rpm
