

Air Handlers & Fan Coil Units

Aska Sykes Air Handlers and Fan Coil Units are capable of delivering huge volumes of hot or cold air where you need it most. Multiple units can be coupled together in series or parallel to provide multi-megawatt packages. Ideal for heating or cooling large outdoor events, these lightweight, low-noise and energy efficient units can be supplied, commissioned and installed in conjunction with our Boilers and Chillers by our experienced technicians. Call us now on **1850 200 688** and our expert team can recommend the perfect solution for your requirements.
